Presents a World Premiere
Women Make History

A "Voices II" video featuring several local people sharing their experiences with 4H and Home Demonstration Clubs

Sat., Feb. 11 • 10:30 am • Havana History Museum

The video describes the beginnings of the USDA Agricultural Extension Service in the early 1900s. Longtime Goodson County Extension Agent Miss Elise LaFite will be spotlighted and former extension agents Carrie Jordan and Donna Salter will be present. Several video participants will also be in attendance.

In the early twentieth century, the U.S. Department of Agriculture established the Cooperative Farm Extension Service. "Women Make History" tells the story of how Home Demonstration Agents taught farm women better methods for carrying out their household responsibilities while showing them how to improve family living conditions through home economics and the use of labor-saving devices. The home demonstration clubs spread quickly and soon reached beyond the individual family to become an important source of education and civic development in many communities.

HHHS World War II Exhibit
May 2023

We Can Do It!

In May, 2023 the Havana History and Heritage Society plans to hold a month-long exhibit focusing on the role and contribution of Women in World War II. The faculty and staff from the Claude Pepper Library at FSU will be designing and setting up the exhibit using items selected from their WWII archival materials collection.

- A section featuring Havana specific WWII materials.
- A general overview of the role women played in the war effort
- Feature stories on four individual service women who served during WWII, each with personal archival material from the FSU collection.
- A focus on the many and varied contributions made by women to the war effort on the homefront.
- A section that features women in the military today.

Numerous activities and events with local veteran groups are also being planned for the month including a Veteran video/oral history project. The oral history project is intended to preserve the accounts and experiences of local area veterans.
